

Absolute Window Films Ltd.

Combination Silver-20 **200 Micron Solar/Safety Film**

USES:

Combination Solar/Safety and Security (Anti-Shatter) Films are suitable for application to windows, structural glazing, curtain walling, glazed partitions, glass exteriors, rooflights and atrium roofs to efficiently and economically increase glazing safety in the event of failure.

TECHNICAL DATA

Total Solar Energy Rejection	79%
Heat Gain Reduction	75%
Glare Reduction	85%
Visible Light Transmission	15%
Visible Light Reflection	60%
Ultraviolet Rejection	99%
Film Colour	Dark Silver

BENEFITS:

Upgrade Sub-Standard Glazing- Meets HSE Legislation For Safety Glazing.

Glass Fragment Containment - Anti-Shatter/Bomb Blast Protection.

Reduces Solar Energy Transmission - Reduces Solar Heat Gain- Saves Energy Use.

Reduces Visible Glare - Increases Comfort Levels- Reduces Eye Strain.

Brings glass to BS6206 Class A (6mm) and B (4mm)

GLAZING TREATMENTS:

Premium Grade Combination Solar/Safety and Security Window Films also offer the added value of solar heat gain rejection, visible glare reduction and improved visual privacy in a single window film application.

SCRATCH RESISTANT:

All internal Films have A Scratch Resistant Coating to protect the product and avoid the appearance of scratches during normal handling and cleaning practices.

All Values are based upon solar control film installed on the inside surface of the glass.

Absolute Window Films Ltd only use high quality films, these are sourced from several Film Manufacturers. These manufacturers all produce their own version of this particular film type. Therefore the technical data supplied above may differ slightly between the companies.
